

Community Service

By: Emily, Jessica, Santana

Overview:

We are trying to help this town become a better place to live and visit, and how we can help it.

Big Idea: Community Service

Essential Question: Is it possible to help this town become better for people to live/visit.

Essential Guiding Question:

- What can we do to help this community?
- How can we complete this activities?

Script:

Hi I'm Emily Wright, I'm Santana Martinez, I'm Jessica Feese and I am the team leader for the 3 help-ateers. We are doing a 21st century project in our technology class at Riverside Middle School. We are here to talk about some of our ideas to help this community. We have already called Meledy Harrison on the phone. She helped us come up with multiple ideas. But now we are here to talk with the whole town counsel about some solutions. The 21st century project is where we have to solve a real life problem which helps

improve our problem solving skills, critical thinking, our creativity, our citizenship services, and our digital comprehension. We have chosen to improve our town and community for our project. We've noticed that our town does not have a lot of social, active, or fun activities. We also know that our town isn't very appealing to tourists due to lack of activities and scenery. Some solutions we have come up with are painting the buildings in the downtown sections, and planting more flowers and trees. Also, we could put a pool somewhere in the town other than the Lakota pool, which only allows that neighborhood to swim there. But we could put in a pool for everyone to use, including tourists.

We could add more stores to help bring in businesses, possibly bring in a movie theatre, more parks, and even maybe an arcade, as Melody brought up. When we were thinking about places that can bring in money, but still be a place to hang out we thought of an Ice Cream shop, Frozen Yogurt place, or maybe a Candy shop. We also came up with ideas for us to do. Such as clean up trash, make money, and help tidy up yards. But, those are just some ideas we brainstormed. We think these things would help make this town more appealing to all. The big question we came here to ask you is Do you think we could accomplish this and what is your opinion on our 21st century project? Do you guys have any

other ideas of ways we can help this community?

Questions for 21st century project

What could we do to help the community?

If we were able to help the community, what support should we do?

How would we complete these activities?

If we complete these how would we contact you or warn you?

For these subjects where would you most likely want us to go to complete these?

Mr. Bresslen 970-984-2311 ask for mayor.

Notes for ideas and meetings

Ideas

- ECONOMIC DEVELOPMENT
- YARDS
- DOWNTOWN
- BUILDINGS PAINTED

- BUSINESSES IN TOWN
- MONEY
- THEATRE
- STORES
- CLEAN UP
- ARCADE

Meetings:

- 4:15 TOWN COUNSEL IN TOWN HALL
- NEXT TUESDAY, 7 PM IN TOWN HALL
- 1ST AND 3RD TUESDAYS OF MONTH, IN TOWN HALL

CBL Timeline Template

Fill in due dates for each stage of the challenge.

Stage
Dates

Stage 1: From Big Idea to Challenge

Understanding the Big Idea and Essential Question
November 13th

Create and/or Accept the Challenge
November 13th

Create Challenge Proposal Video
November 13th

Create Solution Teams/Explore Roles
November 18th

Stage 2: Setting the Foundation

Develop Guiding Questions, Activities, Resources
November 18th

Researching Answers to Guiding Questions
November 20th

Brainstorming Solutions
November 25th

Stage 3: Identifying the Solution

Initial Testing of Solution Prototypes
November 25th

Final Solution Presentation
December 2nd

Stage 4: Implementation and Evaluation

Implementation Plan
December 4th

Solution Implementation
December 9th

Data Analysis and Presentation
December 11th

Stage 5: Publishing Results and Reflections

Solution Video
December 16th

Reflection Videos
December 18th
