

Memorandum

To: Mayor and Council
From: Tom Baker, Town Administrator
Date: June 3, 2014
Re: School District Board Meeting

Council requested an agenda item to prepare for the School Board Worksession on June 10th at 6PM in Rifle.

Last week, I confirmed we would be present at the meeting and requested an agenda including discussion items from the School Board - no response, yet. I don't have any indication that the School Board wishes to discuss specific items. I will forward any information I receive.

Regarding Town items, staff has no specific issues, but we thought it would be useful to list what the Town does for the District. (We understand that we all work for the taxpayer and collaboration is important):

- PD assists with traffic and school crossings (being short staffed the last 2-months has reduced our presence at the schools); officers conduct a one walk-through a week for each school. The walk through is for showing a presence and looking for safety concerns; Tony performs training for all staff during in-service days; conduct the Junior Police Academy (very popular); participates in Science Fair; participates in Trash Man; provide tours of Town Hall and Police vehicles.
- School uses VIX Park for school sports and other activities; Alder Park is used for science classes; tours of water and wastewater facilities.
- ❖ If the opportunity arises and the School Board asks if there is anything they can help the Town with....increased access to Elk Creek School on weekends and summers can allow for expanded programming.
