

**Memorandum**

**To:** Mayor and Council  
**From:** Tom Baker, Town Administrator  
**Date:** November 17, 2015  
**RE:** Update: Exit 105 Interchange Ideas

---

**Purpose:** The purpose of this item is to provide Jeff Simonson and Tim Cain informal feedback regarding ideas that CDOT is developing regarding Exit 105 Interchange.

**Background and Discussion:** For the past several months, Jeff and Tim have been working with CDOT on the exit 105 interchange planning. On Friday November 13<sup>th</sup> CDOT provided Jeff and Tim with diagrams for interchange improvements. Jeff and Tim will present these idea and discuss their thoughts about each idea. It is important to note that CDOT has incorporated all the engineering analysis and work that Jeff and SGM have done to date and have validated that analysis/work.

**Request:** Staff requests that Council listen to the update and provide Jeff and Tim with your reactions and thoughts. Council's feedback will be informal and give Jeff and Tim information to help CDOT refine their ideas. Staff expects that in the future Council will be asked for a formal position on specific options.
