

Hello Bob and Tom,

I've had some time to think about this impending "library". I feel that it will set a poor precedent. Frank mentioned at last night's meeting that there should be room for other opinions. Who is to say that other ideologies could be introduced to this "library". Pro life, pro choice, Christian, Muslim, and any other ideologies would have the right to be represented. Town Hall need not be a forum for any of these.

We have a wonderful library a few feet away from Town Hall that might be willing to begin a collection. We also do not need to put extra burden on our staff to manage any such collections.

Could you please place this idea on the next meeting 's agenda for discussion.

Thank you,  
Art
