B. Street Lighting and Traffic Signal Lighting Service. The Company shall provide street lighting and traffic signal lighting services at the Town's request with said services being governed by Tariffs on file with by the PUC.

§2.2 Conditions and Limitations.

A. Scope of Franchise. The grant of this Franchise shall extend to all areas of the Town as it is now or hereafter constituted that are within the Company's PUC-certificated service territory; however, nothing contained in this Franchise shall be construed to authorize the Company to engage in activities other than the provision of Utility Service.

B. Subject to Town Usage. The Company's right to make reasonable use of Town Streets to provide Utility Service to the Town and its Residents under this Franchise is subject to and subordinate to any Town usage of said Streets.

C. Prior Grants Not Revoked. This grant and Franchise is not intended to and does not revoke any prior license, grant, or right to use the Streets, Other Town Property or Public Utility Easements, and such licenses, grants or rights of use are hereby affirmed.

D. Franchise Not Exclusive. The rights granted by this Franchise are not, and shall not be deemed to be, granted exclusively to the Company, and the Town reserves the right to make or grant a franchise to any other person, firm, or corporation.

§2.3 Effective Date and Term.

A. Term. This Franchise shall take effect on February 1, 2017 (the "Effective Date"), and shall supersede any prior franchise grants to the Company by the Town. This Franchise shall terminate on January 31, 2037, unless extended by mutual consent.

**ARTICLE 3
TOWN POLICE POWERS**

- §3.1 Police Powers. The Company expressly acknowledges the Town's right to adopt, from time to time, in addition to the provisions contained herein, such laws, including ordinances and regulations, as it may deem necessary in the exercise of its governmental powers. If the Town considers making any substantive changes in its local codes or regulations that in the Town's reasonable opinion will significantly impact the Company's operations in the Town's Streets, Public Utility Easements and Other Town Property, it will make a good faith effort to advise the Company of such consideration; provided, however, that lack of notice shall not be justification for the Company's non-compliance with any applicable local requirements.
- §3.2 Regulation of Streets and Other Town Property. The Company expressly acknowledges the Town's right to enforce regulations concerning the Company's access to or use of the Streets and/or Other Town Property, including requirements for permits.
- §3.3 Compliance with Laws. The Company shall promptly and fully comply with all laws, regulations, permits and orders lawfully enacted by the Town that are consistent with Industry Standards. Nothing herein provided shall prevent the Company from legally challenging or appealing the enactment of any laws, regulations, permits and orders enacted by the Town.

**ARTICLE 4
FRANCHISE FEE**

- §4.1 Franchise Fee.
- A. Fee. In partial consideration for this Franchise, which provides the certain terms related to the Company's use of Town Streets, Public Utility Easements and Other Town Property, which are valuable public properties acquired and maintained by the Town at the expense of its Residents, and in recognition of the fact that the grant to the Company of this Franchise is a valuable right, the Company shall pay the Town a sum equal to three percent (3%) of Gross Revenues (the "Franchise Fee"). To the extent required by law, the Company shall collect the Franchise Fee from a surcharge upon Town Residents who are customers of the Company.
- B. Obligation in Lieu of Franchise Fee. In the event that the Franchise Fee specified herein is declared void for any reason by a court of competent jurisdiction, unless prohibited by law, the Company shall be obligated to pay the Town, at the same times and in the same manner as provided in this Franchise, an aggregate amount equal to the amount that the Company would have paid as a Franchise Fee as partial consideration for use of the Town Streets, Public Utility Easements and Other Town Property. Such payments shall be made in accordance with applicable provisions of law. Further, to the extent required by law, the Company shall collect the amounts agreed upon through a surcharge upon Utility Service provided to Town Residents who are customers of the Company.
- C. Changes in Utility Service Industries. The Town and the Company recognize that utility service industries are the subject of restructuring initiatives by legislative and

regulatory authorities, and are also experiencing other changes as a result of mergers, acquisitions, and reorganizations. Some of such initiatives and changes may have an adverse impact upon the Franchise Fee revenues provided for herein. In recognition of the length of the term of this Franchise, the Company agrees that in the event of any such initiatives or changes and to the extent permitted by law, upon receiving a written request from the Town, the Company will cooperate with and assist the Town in making reasonable modifications of this Franchise Agreement in an effort to provide that the Town receives an amount in Franchise Fees or some other form of compensation that is the same amount of Franchise Fees paid to the Town as of the date that such initiatives and changes adversely impact Franchise Fee revenues.

D. Utility Service Provided to the Town. No Franchise Fee shall be charged to the Town for Utility Service provided directly or indirectly to the Town for its own consumption, including street lighting service and traffic signal lighting service, unless otherwise directed by the Town in writing and in a manner consistent with Company Tariffs.

§4.2 Remittance of Franchise Fee.

A. Remittance Schedule. Franchise Fees shall be remitted by the Company to the Town as directed by the Town in monthly installments not more than thirty (30) days following the close of each calendar month.

B. Correction of Franchise Fee Payments. In the event that either the Town or the Company discovers that there has been an error in the calculation of the Franchise Fee payment to the Town, either party shall provide written notice of the error to the other party. Subject to the following sentence, if the party receiving written notice of the error does not agree with the written notice of error, that party may challenge the written notice of error pursuant to Section 4.2.D of this Franchise; otherwise, the error shall be corrected in the next monthly payment. However, subject to the terms of the applicable Tariffs, if any, if the error results in an overpayment of the Franchise Fee to the Town, and said overpayment is in excess of Five Thousand Dollars (\$5,000.00), correction of the overpayment by the Town shall take the form of a credit against future Franchise Fees and shall be spread over the same period the error was undiscovered or the Town shall make a refund payment to the Company. If such period would extend beyond the term of this Franchise, the Company may elect to require the Town to provide it with a refund instead of a credit, with such refund to be spread over the same period the error was undiscovered, even if the refund will be paid after the termination date of this Franchise. All Franchise Fee underpayments shall be corrected in the next monthly payment, together with interest computed at the rate set by the PUC for customer security deposits held by the Company, from the date when due until the date paid. Subject to the terms of the applicable Tariffs, if any, in no event shall either party be required to fund or refund any overpayment or underpayment made as a result of a Company error which occurred more than five (5) years prior to the discovery of the error.

C. Audit of Franchise Fee Payments.

(1) Company Audit. At the request of the Town, every three (3) years commencing at the end of the third calendar year of the Term of this Franchise, the Company shall conduct an internal audit, in accordance with the Company's auditing principles and

policies that are applicable to electric and gas public utilities that are developed in accordance with the Institute of Internal Auditors, to investigate and determine the correctness of the Franchise Fees paid to the Town. Such audit shall be limited to the previous three (3) calendar years. Within a reasonable time after the audit, the Company shall provide a written report to the Town Clerk containing the audit findings and summarizing the audit procedures followed.

(2) Town Audit. If the Town disagrees with the results of the Company's audit, and if the parties are not able to informally resolve their differences, the Town may conduct its own audit at its own expense, in accordance with generally accepted auditing principles and procedures applicable to electric and gas public utilities similar to the Company, and the Company shall cooperate by, including but not necessarily limited to, providing the Town's auditor with non-confidential information that would reasonably be required to be disclosed under applicable state sales and use tax laws.

(3) Underpayments. If the results of a Town audit conducted pursuant to Subsection C(2) concludes that the Company has underpaid the Town by five percent (5%) or more, in addition to the obligation to pay such amounts to the Town, the Company shall also pay all reasonable costs of the Town's audit. The Company shall not be responsible for any errors in third party data that is used in association with audits, including without limitation, Geotax data.

D. Fee Disputes. Either party may challenge any written notification of error as provided for in Section 4.2.B of this Franchise by filing a written notice to the other party within thirty (30) days of receipt of the written notification of error. The written notice shall contain a summary of the facts and reasons for the party's notice. The parties shall make good faith efforts to resolve any such notice of error before initiating any formal legal proceedings for the resolution of such error.

E. Reports. To the extent allowed by law, upon written request by the Town, but not more frequently than once each year, the Company shall supply the Town with a list of the names and addresses of registered natural gas suppliers and brokers of natural gas that utilize Company Facilities to sell or distribute natural gas in the Town during the preceding 12-month period. The Company shall not be required to disclose any confidential or proprietary information.

§4.3 Franchise Fee Payment Not in Lieu of Permit or Other Fees. Payment of the Franchise Fee by the Company to the Town does not exempt the Company from any other lawful tax or fee imposed generally upon persons doing business within the Town, except that the Franchise Fee provided for herein shall be in lieu of any occupation, occupancy or similar tax or fee for the Company's use of Town Streets, Public Utility Easements or Other Town Property under the terms set forth in this Franchise.

ARTICLE 5 ADMINISTRATION OF FRANCHISE

§5.1 Town Designee. The Town Clerk shall designate in writing to the Company an official or officials having full power and authority to administer this Franchise ("Town Designee" or

“Town Designees”). The Town Clerk may also designate one or more Town representatives to act as the primary liaison with the Company as to particular matters addressed by this Franchise and shall provide the Company with the names and telephone numbers of said Town Designees. The Town Clerk may change these designations by providing written notice to the Company. The Town Designees shall have the right, at all reasonable times and with reasonable notice to the Company, to inspect any Company Facilities in Town Streets and Other Town Property.

§5.3 Coordination of Work. The Company and the Town agree to coordinate their activities in Town Streets, Public Utility Easements and Other Town Property. The Town and the Company will meet upon the written request of the Town Designee or the Company at least annually but not more than quarterly to exchange their respective non-confidential short-term and long-term forecasts and/or work plans for construction and other similar work which may affect Town Streets and Other Town Property, including, but not limited, to the following: (1) any planned Town Streets paving projects; (2) proposed changes to the Town’s municipal code and other regulations that may impact Company Facilities and operations in the Town; (3) land use and future utility development in Town Streets; (4) undergrounding projects provided for in this Franchise Agreement; (5) to the extent the area manager is aware of it, any significant upgrades to Company infrastructure within the Town including, but not limited to, replacement of utility and street light poles and overhead transmission lines; and (6) excavation in Town Streets and Other Town Property. The Town and Company shall hold such additional meetings as either deems necessary to exchange additional information with a view toward coordinating their respective activities in those areas where such coordination may prove beneficial to either party and so that the Town will be assured that all applicable provisions of this Franchise, applicable building and zoning codes, and applicable Town air and water pollution regulations are complied with, and that aesthetic and other relevant planning principles have been given due consideration.

ARTICLE 6 SUPPLY, CONSTRUCTION, AND DESIGN

§6.1 Purpose. The Company acknowledges the critical nature of the municipal services performed or provided by the Town to the Residents that require the Company to provide prompt and reliable Utility Service and the performance of related services for Town facilities. The Town and the Company wish to provide for certain terms and conditions under which the Company will provide Utility Service and perform related services for the Town in order to facilitate and enhance the operation of Town facilities. They also wish to provide for other processes and procedures related to the provision of Utility Service to the Town.

§6.2 Supply. Subject to the jurisdiction of the PUC, the Company shall take all reasonable and necessary steps to provide a sufficient supply of gas and electricity to Residents at the lowest reasonable cost consistent with reliable supplies.

§6.3 Charges to the Town for Service to Town Facilities. No charges to the Town by the Company for Utility Service (other than gas transportation which shall be subject to negotiated contracts) shall exceed the lowest charge for similar service or supplies provided by the Company to any other similarly situated customer of the Company. The parties acknowledge the jurisdiction of the PUC over the Company's regulated intrastate electric and gas rates. All charges to the Town shall be in accord with the Tariffs.

§6.4 Restoration of Service.

A. Notification. The Company shall provide to the Town daytime and nighttime telephone numbers of a Company Designee from whom the Town may obtain status information from the Company on a twenty-four (24) hour basis concerning interruptions of Utility Service in any part of the Town.

B. Restoration. In the event the Company's gas system or electric system within the Town, or any part thereof, is partially or wholly destroyed or incapacitated, the Company shall use due diligence to restore such system to satisfactory service within the shortest practicable period of time, or provide a reasonable alternative to such system if the Company elects not to restore such system.

§6.5 Obligations Regarding Company Facilities.

A. Company Facilities. All Company Facilities within Town Streets, Public Utility Easements that are not located on private property, and Other Town Property shall be maintained in good repair and condition.

B. Company Work within the Town. All work within Town Streets and Other Town Property performed or caused to be performed by the Company shall be performed:

(1) in a high-quality manner that is in accordance with Industry Standards;

(2) in a timely and expeditious manner;

(3) in a manner that reasonably minimizes inconvenience to the public;

(4) in a cost-effective manner, which may include the use of qualified contractors; and

(5) in accordance with all applicable Town laws, ordinances and regulations that are consistent with Industry Standards and the applicable Tariffs, if any.

C. No Interference with Town Facilities. Company Facilities shall not unreasonably interfere with any Town facilities, including water facilities, sanitary or storm sewer facilities, communications facilities, or other Town uses of the Streets, Public Utility Easements or Other Town Property. Company Facilities shall be installed and maintained in

Town Streets, Public Utility Easements that are not located on private property, and Other Town Property so as to reasonably minimize interference with other property, trees, and other improvements and natural features in and adjoining the Streets, Public Utility Easements that are not located on private property, and Other Town Property in light of the Company's obligation under Colorado law to provide safe and reliable utility facilities and services.

D. Permit and Inspection. The installation, renovation, and replacement of any Company Facilities in the Town Streets, Public Utility Easements that are not located on private property, or Other Town Property by or on behalf of the Company shall be subject to permit, inspection and approval by the Town in accordance with applicable Town laws. Such permitting, inspection and approval may include, but shall not be limited to, the following matters: location of Company Facilities, cutting and pruning of trees and shrubs and disturbance of pavement, sidewalks and surfaces of Town Streets, or Other Town Property; provided, however, the Company shall have the right to cut, prune, and/or remove vegetation in accordance with its standard vegetation management requirements and procedures. The Company agrees to cooperate with the Town in conducting inspections and pursuant to any such inspection shall promptly perform any remedial action lawfully required by the Town that is consistent with Industry Standards.

E. Compliance. Subject to the provisions of Section 3.3 above, the Company and all of its contractors shall comply with the requirements of applicable municipal laws, ordinances, regulations, permits, and standards lawfully adopted that are consistent with Industry Standards, including but not limited to requirements of all building and zoning codes, and requirements regarding curb and pavement cuts, excavating, digging, and other construction activities. The Company shall require that its contractors working in Town Streets and Other Town Property hold the necessary licenses and permits required by law.

F. Increase in Voltage. The Company shall reimburse the Town for the cost of upgrading the electrical system or facility of any Town building or facility that uses Utility Service where such upgrading is solely caused or occasioned by the Company's decision to increase the voltage of delivered electrical energy. This provision shall not apply to voltage increases required by law, including but not limited to a final order of the PUC, or voltage increases requested by the Town.

§6.6 As-Built Drawings. Within thirty (30) days after written request of the Town Designee, but no sooner than fourteen (14) days after project completion, the Company shall commence its internal process to permit the Company to provide, on a project by project basis, as-built drawings of any Company Facility installed within the Town Streets, Public Utility Easements that are not located on private property, or Other Town Property or contiguous thereto. Said drawings shall be provided to the Town within sixty (60) days of the Company commencing its internal process referenced in the previous sentence. If the requested information must be limited or cannot be provided pursuant to regulatory requirements or Company data privacy policies, the Company shall promptly notify the Town of such restrictions. The Town acknowledges that the requested information may be confidential information of the Company and the Company asserts that disclosure to members of the public would be contrary to the public interest. Accordingly, the Town shall deny the right of inspection of the Company's confidential information as set forth in §

24-72-204(3)(a)(IV) C.R.S., as may be amended from time to time (the “Open Records Act”). If an Open Records Act request is made by any third party for confidential or proprietary information that the Company has provided to the Town pursuant to this Franchise, the Town will immediately notify the Company of the request and shall allow the Company to defend such request at its sole expense, including filing a legal action in any court of competent jurisdiction to prevent disclosure of such information. In any such legal action the Company shall join the person requesting the information and the Town. In no circumstance shall the Town provide to any third party confidential information provided by the Company pursuant to this Franchise without first conferring with the Company. Provided the Town complies with the terms of this Section, the Company shall defend, indemnify, and hold the Town harmless from any claim, judgment, costs, or attorney fees incurred in participating in such proceeding. As used in this Section, as-built drawings refers to hard copies of the facility drawings as maintained in the Company’s business records but shall not include native copies of said drawings maintained in the Company’s geographical information system (GIS) or any equivalent Company system, unless in the future the Company has a policy and programs in place that allow for the sharing of such electronic or native files and then only to the extent such information is not confidential or otherwise prohibited from sharing pursuant to Company policy. The Company shall not be required to create drawings that do not exist at the time of the request.

§6.7 Excavation and Construction. The Company shall be responsible for obtaining, paying for, and complying with all applicable permits, in the manner required by the laws, ordinances, and regulations of the Town, to the extent consistent with Industry Standards. Although the Company shall be responsible for obtaining and complying with the terms of such permits when performing Relocations requested by the Town under Section 6.9 of this Franchise Agreement and undergrounding requested by the Town under Article 11 of this Franchise, the Town will not require the Company to pay the fees charged for such permits. Upon the Company’s submitting a construction design plan, the Town shall promptly and fully advise the Company in writing of all requirements for the restoration of Town Streets, Public Utility Easements not on private property, or Other Town Property in advance of Company excavation projects based upon the design submitted.

§6.8 Restoration. Subject to the provisions of Section 6.5.D of this Franchise Agreement, when the Company performs any work in or affecting the Town Streets, Public Utility Easements that are not located on private property, or Other Town Property, it shall, at its own expense, promptly remove any obstructions placed thereon or therein by the Company and restore such Town Streets, Public Utility Easements that are not located on private property, or Other Town Property to a condition that is substantially the same as existed before the work, and that meets applicable Town standards. If weather or other conditions do not permit the complete restoration required by this Section, the Company may, with the approval of the Town, temporarily restore the affected Town Streets, Public Utility Easements that are not located on private property, or Other Town Property, provided that such temporary restoration is not at the Town’s expense and provided further that the Company promptly undertakes and completes the required permanent restoration when the weather or other conditions no longer prevent such permanent restoration. Upon the request of the Town, the Company shall restore the Streets, Public Utility Easements that are not located on private property, or Other Town Property to a better condition than existed before the Company

work was undertaken, provided that the Town shall be responsible for any incremental costs of such restoration not required by then-current Town standards, and provided the Town seeks and/or grants, as applicable, any additional required approvals. If the Company fails to promptly restore the Town Streets, Public Utility Easements that are not located on private property, or Other Town Property as required by this Section, and if, in the reasonable discretion of the Town, immediate action is required for the protection of public health, safety or welfare, the Town may restore such Streets, Public Utility Easements that are not located on private property, or Other Town Property or remove the obstruction therefrom; provided, however, Town actions do not interfere with Company Facilities. The Company shall be responsible for the actual cost incurred by the Town to restore such Town Streets, Public Utility Easements that are not located on private property or Other Town Property or to remove any obstructions therefrom. In the course of its restoration of Town Streets, Public Utility Easements or Other Town Property under this Section, the Town shall not perform work on Company Facilities unless specifically authorized by the Company in writing on a project-by-project basis and subject to the terms and conditions agreed to in such authorization.

§6.9 Relocation of Company Facilities.

A. Relocation Obligation. The Company shall temporarily or permanently relocate, change or alter the position of any Company Facility (collectively, “Relocate(s),” “Relocation(s)” or “Relocated”) in Town Streets or in Other Town Property at no cost or expense to the Town whenever such Relocation is necessary for the completion of any Public Project. In the case of Relocation that is necessary for the completion of any Public Project in a Public Utility Easement, the Company shall not be responsible for any Relocation costs. In the event of any Relocation contemplated pursuant to this Section 6.9.A, the Company and the Town agree to cooperate on the location and Relocation of the Company Facilities in the Town Streets or Other Town Property in order to achieve Relocation in the most efficient and cost-effective manner possible. Notwithstanding the foregoing, once the Company has Relocated any Company Facility at the Town’s direction, if the Town requests that the same Company Facility be Relocated within two (2) years, the subsequent Relocation shall not be at the Company’s expense. Nothing provided herein shall prevent the Company from obtaining reimbursement of its Relocation costs from third parties.

B. Private Projects. Subject to Section 6.9(F) of this Franchise Agreement, the Company shall not be responsible for the expenses of any Relocation required by Private Projects, and the Company has the right to require the payment of estimated Relocation expenses from the party causing, or responsible for, the Relocation before undertaking the Relocation.

C. Relocation Performance. The Relocations set forth in Section 6.9(A) of this Franchise shall be completed within a reasonable time, not to exceed one hundred twenty (120) days from the later of the date on which the Town Designee requests, in writing, that the Relocation commence, or the date when the Company is provided all Supporting Documentation. The Company shall receive an extension of time to complete a Relocation where the Company’s performance was delayed due to a Force Majeure Event or the failure of the Town to provide adequate Supporting Documentation. The Company has the burden of presenting evidence to reasonably demonstrate the basis for the delay. Upon written request of the Company, the Town may also grant the Company reasonable extensions of

time for good cause shown and the Town shall not unreasonably withhold or condition any such extension.

D. Town Revision of Supporting Documentation. Any revision by the Town of Supporting Documentation provided to the Company that causes the Company to substantially redesign and/or change its plans regarding Company Facility Relocation shall be deemed good cause for a reasonable extension of time to complete the Relocation under this Franchise.

E. Completion. Each such Relocation shall be complete only when the Company actually Relocates the Company Facilities, restores the Relocation site in accordance with Section 6.7 of this Franchise or as otherwise agreed with the Town, and properly abandons on site all unused Company Facilities, equipment, material and other impediments. “Unused” for the purposes of this Franchise shall mean that the Company is no longer using the Company Facilities in question and has no plans to use the Company Facilities in the foreseeable future.

F. Scope of Obligation. Notwithstanding anything to the contrary in this Franchise Agreement, the Company shall not be required to Relocate any Company Facilities from property (a) owned by the Company in fee; or (b) in which the Company has a property right, grant, or interest, including, without limitation, an easement.

G. Underground Relocation. Underground Company Facilities shall be Relocated underground. Above ground Company Facilities shall be Relocated above ground unless the Company is paid for the incremental amount by which the underground cost would exceed the above ground cost of Relocation, or the Town requests that such additional incremental cost be paid out of available funds under Article 11 of this Franchise.

H. Coordination.

(1) When requested in writing by the Town Designee or the Company, representatives of the Town and the Company shall meet to share information regarding anticipated projects which will require Relocation of Company Facilities in Town Streets and Other Town Property. Such meetings shall be for the purpose of minimizing conflicts where possible and to facilitate coordination with any reasonable timetable established by the Town for any Public Project.

(2) The Town shall make reasonable best efforts to provide the Company with two (2) years advance notice of any planned Street repaving. The Company shall make reasonable best efforts to complete any necessary or anticipated repairs or upgrades to Company Facilities that are located in the Streets within the two-year period if practicable.

I. Proposed Alternatives or Modifications. Upon receipt of written notice of a required Relocation, the Company may propose an alternative to or modification of the Public Project requiring the Relocation in an effort to mitigate or avoid the impact of the required Relocation of Company Facilities. The Town shall in good faith review the proposed alternative or modification. The acceptance of the proposed alternative or modification shall be at the discretion of the Town. In the event the Town accepts the proposed alternative or

modification, the Company agrees to promptly compensate the Town for all additional costs, expenses, or delay that the Town reasonably determines resulted from the implementation of the proposed alternative.

§6.10 New or Modified Service Requested by Town. The conditions under which the Company shall install new or modified Utility Service to the Town as a customer shall be governed by this Franchise and the Company's Tariffs and the Tariffs shall control in the event of a conflict.

§6.11 Service to New Areas. If the territorial boundaries of the Town are expanded during the term of this Franchise, the Company shall, to the extent permitted by law, extend service to Residents in the expanded area at the earliest practicable time provided the expanded area is within the Company's PUC-certificated service territory. Service to the expanded area shall be in accordance with the terms of the Tariffs and this Franchise, including the payment of Franchise Fees and undergrounding of new facilities as provided in Article 11 of this Franchise Agreement.

§6.12 Town Not Required to Advance Funds if Permitted by Tariffs. Upon receipt of the Town's authorization for billing and construction, the Company shall install Company Facilities to provide Utility Service to the Town as a customer, without requiring the Town to advance funds prior to construction. The Town shall pay for the installation of Company Facilities once completed in accordance with the Tariffs. Notwithstanding anything to the contrary, the provisions of this Section allowing the Town to not advance funds prior to construction shall only apply to the extent permitted by the Tariffs.

§6.13 Technological Improvements. The Company shall use its best efforts to incorporate, as soon as practicable, technological advances in its equipment and service within the Town when such advances are technically and economically feasible and are safe and beneficial to the Town and its Residents.

ARTICLE 7 RELIABILITY

§7.1 Reliability. The Company shall operate and maintain Company Facilities efficiently and economically, in accordance with Industry Standards, and in accordance with the standards, systems, methods and skills consistent with the provision of adequate, safe and reliable Utility Service.

§7.2 Franchise Performance Obligations. The Company recognizes that, as part of its obligations and commitments under this Franchise, the Company shall carry out each of its performance obligations in a timely, expeditious, efficient, economical and workmanlike manner.

§7.3 Reliability Reports. Upon written request, the Company shall provide the Town with a report regarding the reliability of Company Facilities and Utility Service.

ARTICLE 8
COMPANY PERFORMANCE OBLIGATIONS

§8.1 New or Modified Service to Town Facilities. In providing new or modified Utility Service to Town facilities, the Company agrees to perform as follows:

A. Performance. The Company shall complete each project requested by the Town within a reasonable time. The parties agree that a reasonable time shall not exceed one hundred eighty (180) days from the date upon which the Town designee makes a written request and provides the required Supporting Documentation for all Company Facilities other than traffic facilities. The Company shall be entitled to an extension of time to complete a project where the Company's performance was delayed due to a Force Majeure Event. Upon request of the Company, the Town designee may also grant the Company reasonable extensions of time for good cause shown and the Town shall not unreasonably withhold any such extension.

B. Town Revision of Supporting Documentation. Any revision by the Town of Supporting Documentation provided to the Company that causes the Company to substantially redesign and/or substantially change its plans regarding new or modified service to Town facilities shall be deemed good cause for a reasonable extension of time to complete the project under this Franchise.

C. Completion/Restoration. Each such project shall be complete only when the Company actually provides the service installation or modification required, restores the project site in accordance with the terms of this Franchise or as otherwise agreed with the Town and properly abandons on site any unused Company Facilities, equipment, material and other impediments.

§8.2 Adjustments to Company Facilities. The Company shall perform adjustments to Company Facilities that are consistent with Industry Standards, including manhole rings and other appurtenances in Streets and Other Town Property to accommodate Town Street maintenance, repair, and paving operations at no cost to the Town. In providing such adjustments to Company Facilities, the Company agrees to perform as follows:

A. Performance. The Company shall complete each requested adjustment within a reasonable time, not to exceed thirty (30) days from the date upon which the Town makes a written request and provides to the Company all information reasonably necessary to perform the adjustment. The Company shall be entitled to an extension of time to complete an adjustment where the Company's performance was delayed due to a Force Majeure Event. Upon request of the Company, the Town may also grant the Company reasonable extensions of time for good cause shown and the Town shall not unreasonably withhold any such extension.

B. Completion/Restoration. Each such adjustment shall be complete only when the Company actually adjusts and, if required, readjusts, Company Facilities to accommodate Town operations in accordance with Town instructions following Town paving operations.

C. Coordination. As requested by the Town or the Company, representatives of the Town and the Company shall meet regarding anticipated Street maintenance operations which will require such adjustments to Company Facilities in Streets or Other Town Property. Such meetings shall be for the purpose of coordinating and facilitating performance under this Section.

§8.3 Third Party Damage Recovery.

A. Damage to Company Facilities. If any individual or entity damages any Company Facilities, to the extent permitted by law, the Town will notify the Company within a reasonable time of any such incident of which it has knowledge and will provide to the Company all pertinent information within the Town's possession regarding the incident and the damage, including the identity of the responsible individual or entity.

B. Damage to Company Facilities for which the Town is Responsible. If any individual or entity damages any Company Facilities for which the Town is obligated to reimburse the Company for the cost of the repair or replacement, to the extent permitted by law, the Company will notify the Town of any such incident of which it has knowledge and will provide to the Town within a reasonable time all pertinent information within its possession regarding the incident and the damage, including the identity of the responsible individual or entity.

C. Meeting. The Company and the Town agree to meet periodically upon written request of either party for the purpose of developing, implementing, reviewing, improving and/or modifying mutually beneficial procedures and methods for the efficient gathering and transmittal of information useful in recovery efforts against third parties for damaging Company Facilities.

**ARTICLE 9
BILLING AND PAYMENT**

§9.1 Billing for Utility Services.

A. Monthly Billing. Unless otherwise provided in the Tariffs, the rules and regulations of the PUC, or the Public Utility Law, the Company shall render bills monthly to the offices of the Town for Utility Service and other related services for which the Company is entitled to payment.

B. Address for Billing. Billings for service rendered during the preceding month shall be sent to the person(s) designated by the Town and payment for same shall be made as prescribed in this Franchise and the applicable Tariffs.

C. Supporting Documents. To the extent requested by the Town, the Company shall provide all billings and any underlying Supporting Documentation reasonably requested by the Town in an editable and manipulatable electronic format that is acceptable to the Company and the Town.

D. Annual Meetings. The Company agrees to meet with the Town designee on a reasonable basis at the Town's request, but no more frequently than once a year, for the purpose of developing, implementing, reviewing, and/or modifying mutually beneficial and acceptable billing procedures, methods, and formats which may include, without limitation, electronic billing and upgrades or beneficial alternatives to the Company's current most advanced billing technology, for the efficient and cost effective rendering and processing of such billings submitted by the Company to the Town.

§9.2 Payment to Town. In the event the Town determines after written notice to the Company that the Company is liable to the Town for payments, costs, expenses or damages of any nature, and subject to the Company's right to challenge such determination, the Town may deduct all monies due and owing the Town from any other amounts currently due and owing the Company. Upon receipt of such written notice, the Company may request a meeting between the Company's designee and a designee of the Town to discuss such determination. The Town agrees to attend such a meeting. As an alternative to such deduction and subject to the Company's right to challenge, the Town may bill the Company for such assessment(s), in which case, the Company shall pay each such bill within thirty (30) days of the date of receipt of such bill unless it challenges the validity of the charge. If the Company challenges the Town determination of liability, the Town shall make such payments to the Company for Utility Service received by Town pursuant to the Tariffs until the challenge has been finally resolved.

ARTICLE 10 USE OF COMPANY FACILITIES

§10.1 Town Use of Company Electric Distribution Poles. The Town shall be permitted to make use of Company electric distribution poles in the Town, subject to the Tariffs, without a use fee for the placement of Town equipment or facilities necessary to serve a legitimate police, fire, emergency, public safety or traffic control purpose or, with respect to, among other things, banners or other ornamental attachments, to the extent agreed to by the parties in writing. The Town shall notify the Company in advance and in writing of its intent to use Company's electric distribution poles, and the nature of such use, unless it is impracticable to provide such advance notice because of emergency circumstances, in which event the Town shall provide such notice as soon as practicable. The Town shall be responsible for costs associated with modifications to Company electric distribution poles to accommodate the Town's use of such Company electric distribution poles and for any electricity used. No such use of Company electric distribution poles may occur if it would constitute a safety hazard or would interfere with the Company's use of Company Facilities. Any such Town use must comply with the National Electric Safety Code, Industry Standards, and all other applicable laws, rules and regulations.

§10.2 Third Party Use of Company Electric Distribution Poles. If requested in writing by the Town, the Company may allow other companies who hold franchises, or otherwise have obtained consent from the Town to use the Streets, to utilize Company electric distribution poles in Town Streets and Other Town Property, subject to the Tariffs, for the placement of their facilities upon approval by the Company and agreement upon reasonable terms and conditions, including payment of fees established by the Company. No such use shall be permitted if it would constitute a safety hazard or would interfere with the Company's use of

Company Facilities. The Company shall not be required to permit the use of Company electric distribution poles for the provision of utility service except as otherwise required by law.

- §10.3 Town Use of Company Transmission Rights-of-Way. The Company shall offer to grant to the Town use of transmission rights-of-way which it now, or in the future, owns in fee within the Town for trails, parks, and open space on terms comparable to those offered to other municipalities; provided, however, that the Company shall not be required to make such an offer in any circumstance where such use would constitute a safety hazard or would interfere with the Company's use of the transmission right-of-way. In order to exercise this right, the Town must make specific, advance written request to the Company for any such use and must enter such written agreements as the Company may reasonably require.
- §10.4 Emergencies. Upon written request, the Company shall assist the Town in developing an emergency management plan that is consistent with Company policies. The Town and the Company shall work cooperatively with each other in any emergency or disaster situation to address the emergency or disaster.

ARTICLE 11 UNDERGROUNDING OF OVERHEAD FACILITIES

- §11.1 Underground Electrical Lines in New Areas. Upon payment to the Company of the charges provided in the Tariffs or their equivalent, the Company shall place all newly constructed electrical distribution lines in newly developed or newly annexed areas of the Town underground in accordance with applicable laws, regulations and orders of the Town. Such underground construction shall be consistent with Industry Standards.
- §11.2 Underground Conversion at Expense of Company.
- A. Underground Conversion Program. The Company shall budget and allocate an annual amount, equivalent to one percent (1%) of the preceding year's Electric Gross Revenues, for the purpose of undergrounding its existing overhead electric distribution lines located within the Town, in Town Streets or Other Town Property, as may be requested by the Town Designee (the "Underground Program"), so long as the underground conversion does not result in end use customers of the Company incurring any costs related to the conversion and does not require the Company to obtain any additional land use rights. If the Town requires Relocation of overhead electric facilities in the Streets and Other Town Property and the Company determines that there is not adequate room within the Streets and Other Town Property to relocate the overhead lines, the Company may relocate the lines underground and may charge the cost of undergrounding to the Underground Program, provided that the Company notifies the Town of its determination and the Town nonetheless requires the Relocation.
- B. Unexpended Portion and Advances. Any unexpended portion of the Underground Program available for undergrounding Facilities within the Town that is unused within a calendar year shall be carried over to succeeding years within the term of the Franchise Agreement and, in addition, upon request by the Town, the Company agrees to advance and expend amounts anticipated to be available under the preceding paragraph for up to three (3)

years in advance provided that at least three (3) years remain under the term of this Franchise Agreement. Any amounts so advanced shall be credited against amounts to be expended in succeeding years. Any funds left accumulated in the Underground Program under any prior Franchise shall be carried over to this Franchise. Notwithstanding the foregoing, the Town shall have no vested interest in monies allocated to the Underground Program and any monies in the Underground Program not expended at the expiration or termination of this Franchise shall remain the property of the Company. At the expiration or termination of this Franchise, the Company shall not be required to underground any existing overhead facilities pursuant to this Article, but may do so in its sole discretion.

C. System-wide Undergrounding. If, during the term of this Franchise, the Company should receive authority from the PUC to undertake a system-wide program or programs of undergrounding its electric distribution lines system wide, the Company will budget and allocate to the program of undergrounding in the Town such amount as may be determined and approved by the PUC, but in no case shall such amount be less than the one percent (1%) of annual Electric Gross Revenues provided above.

D. Town Requirement to Underground. In addition to the provisions of this Article, the Town may require any above ground Company distribution lines in Streets and Other Town Property to be moved underground at the Town's expense.

§11.3 Undergrounding Performance. Upon receipt of a written request from the Town, the Company shall underground Company Facilities pursuant to the provisions of this Article, in accordance with the procedures set forth in this Section.

A. Estimates. Promptly upon receipt of an undergrounding request from the Town and the Supporting Documentation necessary for the Company to design the undergrounding project, the Company shall prepare a detailed, good faith cost estimate of the anticipated actual cost of the requested project for the Town to review and, if acceptable to the Town, the Town will issue a project authorization. At the Town's request, the Company will provide all documentation that forms the basis of the estimate that is not proprietary. The Company will not proceed with any requested project until the Town has provided a written acceptance of the Company's estimate.

B. Performance. The Company shall complete each undergrounding project requested by the Town within a reasonable time considering the size and scope of each project, not to exceed two hundred forty (240) days from the later of the date upon which the Town designee makes a written request or the date the Town provides to the Company all required Supporting Documentation. The Company shall have one hundred twenty (120) days after receiving the Town's written request to design project plans, prepare the good faith estimate, and transmit same to the Town designee for review. If Town approval of the plans and estimate has not been granted, the Company's good faith estimate will be void sixty (60) days after delivery of the plans and estimate to the Town Designee. If the plans and estimate are approved by the Town, the Company shall have one hundred twenty (120) days to complete the project, from the date of the Town Designee's authorization of the underground project, plus any of the one hundred twenty (120) unused days in preparing the good faith estimate. At the Company's sole discretion, if the good faith estimate has expired because the Town designee has not approved the same within sixty (60) days, the Company may extend

the good faith estimate or prepare a new estimate using current prices. The Company shall be entitled to an extension of time to complete each undergrounding project where the Company's performance was delayed due to a Force Majeure Event. Upon written request of the Company, the Town may also grant the Company reasonable extensions of time for good cause shown and the Town shall not unreasonably withhold any such extension.

C. Town Revision of Supporting Documentation. Any revision by the Town of Supporting Documentation provided to the Company that causes the Company to substantially redesign and/or change its plans regarding an undergrounding project shall be deemed good cause for a reasonable extension of time to complete the undergrounding project under this Franchise.

D. Completion/Restoration. Each such undergrounding project undertaken pursuant to this Article shall be complete only when the Company actually undergrounds the designated Company lines and restores the undergrounding site in accordance with Section 6.7 of this Franchise, or as otherwise agreed with the Town. When performing underground conversions of overhead lines, the Company shall make reasonable efforts consistent with its contractual obligations to persuade joint users of Company distribution poles to remove their facilities from such poles within the time allowed by this Article.

E. Report of Actual Costs. Upon completion of each undergrounding project undertaken pursuant to this Article, the Company shall submit to the Town a detailed report of the Company's actual cost to complete the project and the Company shall reconcile this total actual cost with the accepted cost estimate. The report shall be provided within one hundred twenty (120) days after completion of the project and written request from the Town.

F. Audit of Underground Projects. The Town may require the Company to undertake an independent audit of up to two (2) undergrounding projects in any calendar year. The Town shall make any such request in writing within one hundred twenty (120) days of receipt of the report of actual costs, as referenced in Section 11.3.E of this Franchise Agreement. Such audits shall be limited to projects completed within 12 months prior to the date of the audit request. The cost of any such independent audit shall reduce the amount of the Underground Program balance. The Town shall (a) give prompt written notice to the Company of any claim, demand, or lien with respect to which the Town seeks indemnification hereunder; and, (b) unless in the Town's judgment a conflict of interest may exist between the Town and the Company with respect to such claim, demand, or lien, shall permit the Company to assume the defense of such claim, demand, or lien with counsel reasonably satisfactory to the Town. If such defense is assumed by the Company, the Company shall not be subject to liability for any settlement made without its consent. If such defense is not assumed by the Company or if the Town determines that a conflict of interest exists, the parties reserve all rights to seek all remedies available in this Franchise against each other. Notwithstanding any provision hereof to the contrary, the Company shall not be obligated to indemnify, defend, or hold the Town harmless to the extent any claim, demand, or lien arises out of or in connection with any negligent or intentional act or failure to act of the Town or any of its officers, agents or employees, or to the extent that the claim, lien, or demand arises out of the Town's status as a customer of record of the Company.

Upon receipt of such notice, the Breaching Party shall be given a reasonable time, not to exceed thirty (30) days, in which to remedy the Breach or, if such Breach cannot be remedied in thirty (30) days, such additional time as may be reasonably needed to remedy the Breach, but not exceeding an additional thirty (30) day period, or such other time as the parties may agree. If the Breaching Party does not remedy the Breach within the time allowed in the notice, the Non-Breaching Party may exercise the following remedies for such Breach:

(1) specific performance of the applicable term or condition to the extent allowed by law; and

(2) recovery of actual damages from the date of such Breach incurred by the Non-Breaching Party in connection with the Breach, but excluding any special, punitive or consequential damages.

B. Termination of Franchise by Town. In addition to the foregoing remedies, if the Company fails or refuses to perform any material term or condition of this Franchise (a “Material Breach”), the Town may provide written notice to the Company of such Material Breach. If the Company does not remedy the Material Breach within the time allowed in the notice, the Town may, in its sole discretion, terminate this Franchise. This remedy shall be in addition to the Town’s right to exercise any of the remedies provided for elsewhere in this Franchise. Upon such termination, the Company shall continue to provide Utility Service to the Town and its Residents (and shall continue to have associated rights and grants needed to provide such service) until the Town makes alternative arrangements for such service and until otherwise ordered by the PUC, and the Company shall be entitled to collect from Residents and, upon the Town complying with applicable provisions of law, shall be obligated to pay the Town, at the same times and in the same manner as provided in this Franchise, an aggregate amount equal to the amount which the Company would have paid as a Franchise Fee as consideration for use of the Town Streets and Other Town Property. Unless otherwise provided by law, the Company shall be entitled to collect such amount from Residents.
